ABOUT THE SPEAKER

Winona Dimeo-Ediger

Winona has been a digital content creator for nearly a decade, writing about culture, travel, and politics for publications like National Geographic, Rolling Stone, and NPR. For the past few years, she's been able to dig into her love of place marketing and talent attraction content as the editor-in-chief of Livability.com. She's a lover of bookstores, vintage boots, dive bars, and bad jokes.

THE MESSAGE

The characteristics that have made the Blair County Chamber a successful organization for more than 130 years will continue to be “front-and-center” as the Chamber rolls into the Alliance for Business Growth and Economic Development in 2024.

Joe Hurd
President/CEO
Blair County
Chamber of Commerce

Really good ideas sometimes take a little longer to come to fruition. So it isn't at all surprising that two organizations like the Blair County Chamber of Commerce and the Altoona-Blair County Development Corporation finally figured out what it takes to be the best of both worlds.

In business, mergers happen all the time. Too often, it's a strong business propping-up a struggling one. Ideally, when both partners are at the top of their games, the strong get even stronger. That was the thought process in the

creation of the Alliance for Business Growth and Economic Development.

For more than two decades, the Chamber and ABCD have been neighbors in the Devorris Center for Business Development. The Chamber has participated in ABCD events; ABCD staff has served on Chamber committees and supported Chamber programs as corporate sponsors. It's worked well but there has always been a sense that more could be done to benefit the local business community.

The merger should help

make that happen. As one organization with a drastically improved system of communication and business promotion, the Alliance will have more viable ways to meet some of the needs that may have fallen through the cracks, particularly related to business growth and grant funding.

Expect to be impressed!

The more things change...the more they remain. No doubt the formation of the Alliance is a big change in many ways. But that change will help us double down on proven strategies and programs; those that help our community weather economic storms and benefit from the new opportunities they create.

Steve McKnight
President/CEO
ABCD Corporation

Blair County's productivity is at an all-time high. Businesses are investing in new technologies like never before. The result is higher skill, higher wage job opportunities across industry sectors. Attracting our next generation residents and investors to the First Frontier Blair County remains our focus. For the next few months, we want you to take part in our strategic planning process. Help us identify what is working and what can

be done better. All is on the table!

2023 was a big year. While the merger took time, business expansions continued unabated. The Altoona Blair County Development Corporation financed 51 expansion projects totaling more than \$29 million in new investment. That helped to create 157 new jobs while retaining more than 320 existing positions.

Several ground breakings and site development work

rounded out a robust year. The fundamentals remain in place for 2024. We look forward to hearing from you; helping us to make our community the best it can be. Keep thinking big. Let's make great things happen.
